# BRANDON BIRSCHBACH

## Senior Software Engineer

### SUMMARY

---

Experienced Full-Stack Developer with over 11 years of expertise in Web Development and a Bachelor's degree in Computer Information Systems. Proficient in Agile methodologies, DevOps practices, and cloud technologies. Skilled in developing and deploying scalable and secure web applications using modern frameworks and tools. Strong problem-solving abilities, excellent communication skills, and a collaborative team player.

### WORK EXPERIENCE

---

#### Associate, Software Development

*SitusAMC - July 2023 - May 2024*

- Worked on the front and back-end of the Closer software that is used for commercial real estate.
- Used Web Components, TypeScript, C#, CSS, SQL.
- Collaborated with cross-functional teams, following Agile methodologies like Scrum or Kanban for iterative software delivery.

#### Full-Stack Engineer

*Escapod - November 2022 - May 2023*

- Was the only engineer hired to launch the internal facing software called PODS.
- PODS was created for the manufacturing team to remove the use of paper, increase speed of training and manufacturing, and keep track of the progress of each trailer on the line.
- Used React.js, Tailwind CSS and Sanity to create the PODS software and officially launched it out of beta before further development was shut down.

#### Software Engineer & Integrations Specialist

*Opiniion Inc - June 2019 - November 2022*

- Used Vue.js & MongoDB to develop and maintain the Opiniion SaaS app.
- Used REST & SOAP to integrate with 3rd party API's such as: InfusionSoft, Entrata, Yardi, ForeUp and others.
- Implemented CI/CD pipelines for automated testing, building, and deployment of applications.

#### Front-End Developer

*RentEGI - October 2017 - June 2019*

- Used Visual Studio, VB.Net, jQuery, CSS3 & Bootstrap to manage the front-end of Rentegi.com.
- Designed and implemented RESTful APIs and microservices architecture for scalable and modular application development.
- Used Visual Studio & C#/VB.Net to create console apps to integrate with 3rd party API's such as: HappyCo, Opiniion, Kingsley & Amenify.

#### **Front-End Developer**

*Red Bell Real Estate - May 2017 - August 2017*

- Used Visual Studio, CSS3 and jQuery on the Angular-Google Maps project. Until the project was shut down.
- Managed the UI/UX of the site using designs from the design team.
- Conducted thorough testing, debugging, and troubleshooting to ensure high-quality software deliverables.
